THOMPSON RECEIVES OVERWHELMING SUPPORT

THOMPSON RECEIVES OVERWHELMING SUPPORT

State Senator Antoine Thompson (D-parts of Erie & Niagara Counties) leads the way in the race to maintain his seat as Representative of the 60th Senate District for the State of New York. During the recent petition drive Thompson secured 9,600 signatures, nearly ten times the required amount to get his name on the nominating ballot.

Thompson says the overwhelming public endorsement will hopefully allow him to continue working to bring positive change to the lives of Western New Yorkers. "As Chair of the Environmental Conservation Committee my goal is to continue to help save our environment through various initiatives and increase the push for green jobs. I will also continue my fight on behalf on Women and Minority Business Enterprises looking for an equal opportunity."

In addition to Senator Thompson's many legislative successes his community outreach efforts include, but are not limited to, helping students realize their dreams of going to college by providing opportunities for them to earn scholarships. Thompson has also made provisions for people to hold on to their homes through his "Operation Protect Your Home" program. Senator Thompson wishes to thank everyone for their continued support
